

Non-Flammable High Strength Spray Adhesive Clear or Red

- High Strength Permanent Bond
- High Temperature Resistant
- Waterproof
- Non-Staining
- High Solids for Extended Coverage
- Non-Flammable/Solvent-Based

At Westech, our efforts are focused on producing high quality, industrial strength adhesives. We sell our products in a wide variety of markets at a competitive price. With a profound understanding of our customers' needs and years of industry experience, we continue to develop new products and applications to serve our current and future customers.

Westech's NFHS spray adhesive was specifically designed to be a high strength, truly non-flammable industrial adhesive applicable to a variety of substrates.

- Bonds HPL plastic laminates to wood or particleboard
- Bonds upholstery to metal
- Bonds radius edgebanding
- Bonds automotive headliners

Westech's self contained, environmentally friendly, portable canister system was designed for ease of use. The canister, equipped with a reusable hose and gun, eliminates the need for air-assisted adhesive application systems. This approach significantly reduces worker set up and general maintenance time. Its portability enables you to apply adhesive in your facility as well as on the job site. NFHS is available in 40 lb. and 200 lb. canisters.

NFHS provides a fast tacking, strong, permanent and waterproof bond.

- High Tensile Strength
- A High Solids Web Pattern Formulation for Extended Coverage
- High Temperature Resistance Level of Bonding
- Ample Peel Strength

Technical Data

Westech keep product is formulated as a high strength/temperature and non-flammable solvent-based adhesive for industrial use.

Technical Data:

- Contains NO CFCs
- Non-Flammable

Performance Features:

- Formulated for rapid application
- Simple clean up with AR adhesive remover
- Bond will hold in the presence of both heat and humidity
- Applies easily and adheres to various substrates

Safety Recommendations:

Vapors may be harmful to health. Keep away from children. Use only in well ventilated areas or use respiratory protection. The product MSDS should be read and understood before use. Eye protection is required. This product is not flammable.

Recommended Usage:

Westech keep is specifically formulated to be a high strength high temperature non-flammable industrial adhesive applicable to a variety of substrates. This adhesive is suitable for use in many different industries such as woodworking, furniture, high pressure laminates, edgebanding, marine, RV, automotive headliners, upholstery and construction, just to name a few.

Prior to use, a small test patch should be sprayed to evaluate substrate compatibility. This product may degrade some thin plastics and films. Some of the materials keep will effectively bond include plastic laminate, edgebanding, automotive headliners, glass, particleboard, felt, paper products, carpet, duct insulation, steel, aluminum, molded fiberglass wood urethane foam and many other materials.
